REQUEST FOR REDACTED PUBLICATION OF APPLICATION
(37 CFR 1.217)

Commissioner of Patents
Washington, D.C. 20231

Sir:

Applicants request that a redacted version of the above patent application be used for Publication. In compliance with the rules of 37 CFR 1.217, applicant submits:

37 CFR 1.217(b)

The redacted version of the application was submitted in accordance with the Patent Office Electronic Filing System. A copy of the "Acknowledgment Receipt" of the successful upload of the redacted text, and issued by the Patent Office on 21 February 2003, is attached.

37 CFR 1.217(c)(1)

Submitted in paper is a copy of the foreign-filed application, certified by the United States Patent and Trademark Office (RO/US), that corresponds to the application for which the redacted copy has been submitted. No priority claim between the instant application and the foreign-filed application has been requested.

37 CFR 1.217(c)(2)

A translation of the foreign filed application is not needed because the foreign-filed application was filed in English.

37 CFR 1.217(c)(3)

A marked-up copy of the application showing the redactions in brackets is attached.
A clean version of the specification is also attached.

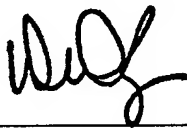

37 CFR 1.217(c)(4)

A certification that the redacted copy of the application eliminates only the part or description of the invention that is not contained in any application filed in the foreign country, directly or through a multilateral international agreement, that corresponds to the application filed in the Office is attached.

REMARKS

This request for redacted publication and all substantiating documents submitted herewith are timely filed within the guidelines of 37 CFR 1.217(a), and before sixteen months after the earliest filing date for which a benefit is sought under Title 35, United States Code.

Respectfully submitted,
